Introduction
The mission of the Arizona Community Foundation of Yavapai County (ACFYC) is to lead, serve and collaborate to mobilize enduring philanthropy for a better Yavapai County. An affiliate of the Arizona Community Foundation, ACFYC is a 28-year-old permanent philanthropic endowment organization that connects community needs to donors who have a passion for meeting those needs. A local Board of Advisors guide this family of charitable funds and benefits from cost-efficient, centralized professional services provided by the Arizona Community Foundation. Founded in 1978, the Arizona Community Foundation is a statewide philanthropic organization with regional offices serving communities across Arizona. Last fiscal year, Arizona Community Foundation granted more than $96 million to 2,718 nonprofit organizations, schools and government agencies. Since inception in 1992, ACFYC has awarded more than $24 million in grants and scholarships to Yavapai County nonprofit organizations, schools and municipalities serving local needs. To learn more, visit azfoundation.org/yavapai.

ACFYC encourages proposals that:
• Leverage matching funds.
• Engage strategic, mission-driven collaborations/partnerships.
• Build capacity of the organization.
• Proposals that support the underserved and unrepresented populations.
• Support direct service projects and programs.
• Support capital expenditures related to equipment necessary to carry out a program, project, or service. Please note, however, that grant awards may not support “brick and mortar” capital expenditures or a capital campaign effort.
• Support general operating budgets.
• Support one-year and/or renewable funding proposals; however, funding in this cycle does not imply nor guarantee funding for second/future year.
• Support direct and indirect administrative costs associated with carrying out the program, such as staff salary/wages, project management, marketing, consultants, supplies, postage, travel, training, equipment, newly acquired information technology, etc. Direct costs can also include directly attributable administrative support, legal or accounting functions, with distinct and measured effort on the project.
• Applications that support event sponsorships or fundraising events cannot be considered.

**Important Definitions**

**501(c)(3)** - A section of the Internal Revenue Service tax code. Often used as shorthand to designate an organization that has been accorded nonprofit status by the IRS. Funders and contributors will often require proof of 501(c)(3) status before making a grant or contribution. Donations to 501(c)(3) organizations are deductible from federal income taxes as charitable contributions; donations to other kinds of organizations may not qualify as charitable contributions.

**990-PF** - The reporting form that all private grantmaking foundations must submit annually to the Internal Revenue Service to document their financial activities during the year. 990-PFs are
public documents and can be a rich source of supplemental information about grantmaking foundations, including their trustees, the sources of their funds, and their grantmaking and charitable contributions during the year. Two websites that post recent 990-PFs of thousands of private foundations are: GrantSmart and GuideStar.

**Capacity Building Grant** - Grants intended to strengthen the management capacity of nonprofits in ways that will enhance institutional and programmatic development and enable the NPO to further its mission and make a real difference in the lives of the people or the cause the organization is committed to serving.

**Challenge Grant** - A grant that is made on the condition that other monies must be secured, either on a matching basis or via some other formula, usually within a specified period of time, with the objective of stimulating giving from additional sources.

**Community Foundation** - A community foundation is a tax-exempt, nonprofit, autonomous, publicly supported, philanthropic institution composed primarily of permanent funds established by many separate donors for the long-term diverse, charitable benefit of the residents of a defined geographic area. Typically, a community foundation serves an area no larger than a state. Community foundations provide an array of services to donors who wish to establish endowed funds without incurring the administrative and legal costs of starting independent foundations.

**Community Fund** - A community fund is a local “savings account” where charitable donations are collected to serve a broad array of needs within a defined geographic area. Community funds are endowments—permanent funds in which the principal is invested, with a portion of the returns awarded locally as grants and scholarships. The Fund continues to grow forever, creating a permanent source of financial support for local needs. Community funds are developed by local citizens and built with gifts from many people, corporations, and service organizations. They are guided by a local advisory panel that is empowered to award grants.

**Donated Products** - Any goods, products, equipment, or other tangible property that is donated to an organization to become its property and for its use. These can include consumable products (such as food items, paper goods, office supplies, etc.) as well as furnishings, computer equipment, automobiles, etc. Donated products are part of an agency’s “in-kind” support and should be included in an agency’s budget, at fair-market value.

**Endowment** - A body of funding that generates investment or interest income for an agency. Usually, the principal of the endowment fund remains untouched, while the agency is free to spend or reinvest the interest income it generates.

**Fiscal Agent** - a nonprofit 501(c)(3) organization that agrees to accept and be responsible for grant monies on behalf of the nonprofit grantee.

**Funding Cycle** - A chronological pattern of proposal review, decision making, and applicant notification.
Goals and Objectives - The section of a funding proposal commonly called "Goals and Objectives" is one of the most important components of your request for funding -- and one of the easiest to misunderstand. The terms themselves are often confused or used differently by organizations in different fields. Basically, the two terms refer to two different levels of changes, outcomes or impacts that will be achieved through your program or services. The first is the broad, overarching purpose served by your program or service -- for instance, "Our purpose [or goal] is to help women victimized by abuse recover their strength, stability and self-esteem." The second might best be called your targets or success indicators -- those results that are specific, measurable, and time-bound and that directly contribute toward accomplishing the overall purpose. An example: "Within 6 months of graduating from our program, 75% of the women will have secured and maintained employment at or above the median income level by household size." (See also "Outcome objective.")

Grant - An award of funds to undertake charitable activities.

Grant Application - The medium in which to submit a grant request. Applications are posted and accessed via the Arizona Community Foundation website. The site outlines the grant eligibility requirements, focus area and application questions.

Grant Proposal - The document that makes up a grant request. The proposal is the final product of answering all application questions. It is the document that is submitted through the online application and is used in grants review. Once saved, it can be accessed through the organizational profile.

Grantee - The individual or organization who/that receives a grant. Grantees for Community Foundations funding may be 501(C)(3) organizations, public schools, municipalities, and American Indian Tribes.

In-kind support - Any contributions to an agency that have value but are not monetary in nature. In-kind support can include the value of donated products or equipment; volunteer services; donated office space or staff time; loaned executives; and donated professional services, among others. In-kind support should always be included in an agency’s budget, at fair-market value.

Nonprofit Organization - a legally constituted organization that is classified by the IRS as a 501(c)(3), nonprofit institution, whose objective is to support or engage in activities of public or private interest without any commercial or monetary profit.

Operating Support - A contribution given to cover an organization's day-to-day, ongoing expenses, such as salaries, utilities, office supplies, etc.

Outputs - In the nonprofit world, outputs are programs, training, and workshops; the means by which change is produced.

Outcomes - Outcomes are the difference made by the outputs (i.e., knowledge transferred, and behaviors changed).
Outcome objective - This terminology describes a target or success indicator that directly addresses the change that will “come out of” your proposed service or program. The “outcome” is the change itself -- the answer to the question, “What will be different in our community or in the lives of the people we’re serving as a result of our effort?” An outcome objective is distinct from a process or input objective, which focuses on activities or to-do list items. An example of an output objective would be: “By Dec. 2003, we will provide 60 hours of reading instruction to 50 adult learners.” A related, and much stronger, outcome objective -- focusing on the change, not what it takes to produce the change -- would be: “After 60 hours of instruction, 75% of the adult learners will have improved their reading abilities by at least two grade levels.”

Outcome evaluation - An evaluation process that focuses on measuring success in achieving specific, measurable and meaningful change in the community or in the lives of people being served (see “Outcome objective”) rather than simply counting outputs or reporting on the process.

Performance measures - Performance measurement is the systematic monitoring and reporting of an organization’s results, particularly progress towards pre-established goals. Performance measures can be used to monitor processes (i.e., the type or level of activities), outputs (i.e., the direct products and services delivered) or outcomes (i.e., the results of those products and services). Performance measurement can be applied to programmatic as well as non-programmatic objectives (i.e., measuring financial, management or community processes, outputs, or outcomes).

Philanthropy - Philanthropy is defined in different ways. The origin of the word philanthropy is Greek and means “love for mankind.” Today, philanthropy includes the concept of voluntary giving by an individual or group to promote the common good. Philanthropy also commonly refers to grants of money given by foundations to nonprofit organizations. Philanthropy addresses the contribution of an individual or group to other organizations that in turn work for the cause of alleviating poverty or social problems, thereby improving the quality of life for all citizens. Philanthropic giving supports a variety of activities including research, health, education, arts, and culture, as well as alleviating poverty.

Post-grant Evaluation - A review of the results of a grant, with the emphasis upon whether or not the grant achieved its desired objective.

Seed Money - A grant or contribution used to start a new project or organization.

Site Visit - Visiting a grantee organization at its office location or area of operation, or meeting with its staff, directors, or recipients of its services.
